

**Relph Machinery
now have a lot
to shout about**

For starters we now have

a fabulous new range of tractors

**As your new McCormick dealer we offer a complete range of tractors
to meet every application from 28 - 280hp**

By listening to the needs of the farmer, McCormick have designed a range of tractors which really deliver on performance, productivity and reliability.

It's hardly surprising therefore that McCormick won Tractor Of The Year 2006 for the highly innovative XTX. By setting and working to the most demanding manufacturing standards, a McCormick tractor gives the farmer dependability hour after hour, day after day, year after year.
